

## ARBO-WATCH KoboToolbox Training

### Sample Questionnaire (for Practice)

This questionnaire will be used during our training session, as we will try to develop the tool together so that we are aware of the different components of the tool. We will develop the tool using the two different approaches: via the **formbuilder** and the **XLSform**.

#### Questionnaire: Knowledge, Attitudes, and Practices (KAP) on Aedes Mosquitoes

##### Introduction:

We are conducting a survey to better understand people's knowledge, attitudes, and practices regarding *Aedes* mosquitoes and the diseases they transmit (such as dengue, Zika, and chikungunya). Your responses will be kept confidential and used only for research purposes.

Do you agree to participate in this survey?

- ☐ Yes
- ☐ No

*(If "No", thank the respondent and do not proceed with the survey.)*

*(Here is the message: "Thank you for your time. Since you have chosen not to participate, we will not proceed with the survey. We appreciate your consideration and wish you a good day.")*

##### Section 1: Demographics

1. Name of respondent

2. Country of residence

3. What is your gender?

- Male
- Female
- Other

4. Which languages do you speak at home?

- English
- Kiswahili

- Somali
- Arabic
- Amharic
- Omo
- Other

5. How many people live in this household (excluding the respondent)?

A. What is the name of the Household member? Hint: *Please list the name from the oldest to the youngest*

B. Is the HH member male or female {use question referencing at HH member}

C. State the date of birth of HH member

6. What is your household's average monthly income (in KES/SOS/ETB)?

7. What is your date of birth?

8. What time did the interview start?

## Section 2: Knowledge

9. Have you ever heard of Aedes mosquitoes?

- Yes
- No (move to section 3)

10. What diseases can Aedes mosquitoes transmit?

- Dengue
- Zika virus
- Chikungunya
- Yellow fever
- Don't know

11. Where do Aedes mosquitoes typically breed?

12. Record the household GPS coordinates.

13. Take a photo of a potential mosquito breeding site near the household

## Section 3: Attitudes

14. How concerned are you about mosquito-borne diseases?

- 1 = Not at all concerned
- 2 = Slightly concerned
- 3 = Moderately concerned

- 4 = Very concerned
- 5 = Extremely concerned (*Rating*)

15. Rank the following according to how important they are for preventing Aedes mosquitoes (1 = most important, 4 = least important):

- Eliminating standing water
- Using mosquito nets
- Spraying insecticides
- Community clean-up campaigns (*Ranking*)

16. On a scale of 0–10, how confident are you that your community can prevent Aedes breeding? (*Range slider*)

#### Section 4: Practices

17. Do you take any measures to prevent mosquito bites?

- Yes
- No

(If “**Yes**”, continue to Q16. If “**No**”, skip to Q20.)

18. What measures do you currently take?

- Use mosquito repellent
- Wear long sleeves/pants
- Use mosquito nets
- Eliminate standing water
- Spray insecticides

19. How often do you use these measures?

- Always
- Sometimes
- Rarely
- Never

20. Do you regularly check for and empty standing water around your home?

- Yes
- No

21. Use this as a note: *Showing how to Calculate using Kobo*

Enter the number of water containers around your house:

Enter the number of containers covered with lids:

(Calculate: % containers covered = (covered ÷ total) × 100)

22. How often do you engage in the following mosquito control practices? (*Matrix*)

| Practice                 | Always                   | Sometimes                | Rarely                   | Never                    |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Use mosquito repellent   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wear long sleeves/pants  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Use mosquito nets        | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Eliminate standing water | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Spray insecticides       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

### Afternoon Assignment – 27<sup>th</sup> August 2025

Using the questionnaire demonstrated in the morning session, complete the following tasks. Note that you are required to **finish developing the questionnaire using the Form Builder option, excluding Question 22.**

#### 1. Introductory Section

- Download the form as an XLSForm.
- Format the introduction so that it is displayed as follows:

##### Introduction

*We are conducting a survey to better understand people's knowledge, attitudes, and practices regarding Aedes mosquitoes and the diseases they transmit (such as dengue, Zika, and chikungunya).*

*Your responses will be kept confidential and used only for research purposes.*

*NB: Notice the paragraphs and bold in the introduction*

#### 2. Gender Question

In the XLSForm, ensure that the gender question has only one choice for each gender (currently, it displays more than one). *You may do the same for the other variables.*

**Upload the corrected form and confirm that it is valid.**

#### 3. Constraint for Question 21

Apply a constraint so that the number of **lids entered** is less than or equal to the number of containers.

#### 4. Matrix Question

Add the matrix question (Question 22) to the XLSForm.

#### 5. Form Settings

Update the form settings to include:

- form\_title
- style
- version

#### 6. Mandatory Signature

Add a required signature field for the surveyor at the end of the questionnaire.

#### 7. Form Deployment

- Redeploy the form.
- Print the final questionnaire to a pdf file
- Enter 10 random test data points to check functionality.

#### 8. Data Visualization

- Generate a **custom report** summarizing each section of the data.

#### 9. Report Export/ Download the report into a csv file

- Save the report as a PDF file.
