

Digital Data Collection Tools: Kobo Collect

(Data Collection and Management Module)

Afternoon Assignment – 28th August 2025

Using the questionnaire demonstrated in the morning session, complete the following tasks. Note that you are required to **finish developing the questionnaire using the Form Builder option, excluding Question 22.**

1. Form Deployment

- Redeploy the form.
- Print the final questionnaire to a pdf file

2. Mandatory Signature

Add a required signature field for the surveyor at the end of the questionnaire.

3. Ensure that you are able to set up the phones for data collection. Use the phones to collect data, submit at least 10 data points that can be used to generate a report.

4. Data Visualization

- Generate a **custom report** summarizing the following
 - a. **Report 1:** All the select one questions
 - b. **Report 2:** All the select many questions
 - c. Save the two reports as pdf

5. Download the data using at least two the export types e.g. XLS, CSV, XLS (legacy) e.t.c. Discuss the differences in presentation of the data downloaded.
